

A PARTNERSHIP BETWEEN

GONZAGA 
PREPARATORY SCHOOL

Gonzaga Family Haven

For families who have experienced the trauma of intergenerational poverty, homelessness, and the chaos of family separation, the Gonzaga Family Haven will be life-changing. For students at Gonzaga University and Gonzaga Preparatory School, Gonzaga Family Haven will provide a unique opportunity for them to put their values and education to work in the community for an immediate and tangible impact.

This 20,000 square foot property operated by Catholic Charities of Eastern Washington will feature 73 housing units and provide a full range of supportive services for residents of the community through Gonzaga's Center for Community Engagement.

Gonzaga students will help provide:

- Adult education/employment readiness
- Personal health and wellness classes
- Mentoring/tutoring
- After school programs
- Community meals and nutritional programming
- Multi-modal transportation systems
- ...and more!

The Gonzaga Family Haven's proximity to the Gonzaga Preparatory and Gonzaga University campuses create a unique environment in which the families served can truly thrive. Student and staff support from both institutions in partnership with Catholic Charities of Eastern Washington will set the Gonzaga Family Haven apart from similar community housing resources, leading to an increased likelihood of achieving projected outcomes.
