The **Community Development Block Grants (CDBG)** program provides annual grants to States and local units of government to develop viable urban communities by providing decent housing and a suitable living environment, and by expanding economic opportunities, principally for low- and moderate-income persons.

The **Emergency Solutions Grants (ESG)** program provides funding to engage homeless individuals and families living on the street; improve the number, quality and operations of emergency shelters for homeless individuals and families; provide essential services to shelter residents, rapidly re-house homeless individuals and families, and prevent families/individuals from becoming homeless.

The **HOME** program helps to expand the supply of decent, affordable housing to low- and very low-income families by providing grants to States and local governments to fund housing programs that meet local needs and priorities.

The **HOPWA** program provides housing assistance and related supportive services to local units of government, States and non-profit organizations for projects that benefit low-income persons medically diagnosed with HIV/AIDS and their families.

The **Housing Trust Fund (HTF)** provides funding to developers to preserve, rehabilitate and construct housing, primarily for extremely low-income families. At least 80 percent of the funds must be used for the production, preservation, rehabilitation, or operation of rental housing. Up to 10 percent can be used for the following homeownership activities for first-time homebuyers: production, preservation, and rehabilitation; down payment assistance, closing cost assistance, and assistance for interest rate buy-downs.
