

WASHINGTON

41 companies across Washington are working to supply Artemis.

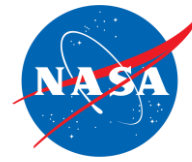

11 Washington companies are manufacturing supplies for Exploration Ground Systems (EGS) based at NASA's Kennedy Space Center in Florida. EGS is building a sustainable, affordable U.S. infrastructure to support a variety of spacecraft and rockets, including the Orion spacecraft and Space Launch System (SLS) rocket. This national capability will make processing and launch infrastructure available to commercial and other government customers, thereby distributing the cost among multiple users and reducing the cost of access to space.

14 companies in Washington provide critical materials for NASA's Orion spacecraft — the only spacecraft capable of crewed deep spaceflight and high-speed re-entry from the vicinity of the Moon. No other spacecraft has the technology needed for the extremes of deep space — life support, navigation, communications, radiation shielding, and the world's largest heat shield.

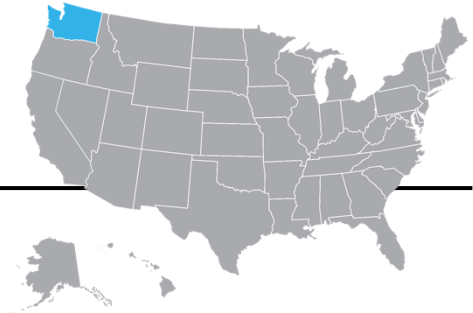

16 Washington companies supply NASA's SLS rocket, the most powerful rocket ever flown. Orion will launch on the agency's new super-heavy-lift rocket that will send astronauts to the Moon as part of the Artemis missions and to explore destinations far into the solar system.

One company in Washington is working on Gateway, a multipurpose outpost orbiting the Moon that will provide essential support for long-term human missions to the lunar surface and serve as a staging point for deep space exploration.

Note: Some companies supply multiple elements to an Artemis program but are only listed once in the supplier list for that program.

WASHINGTON

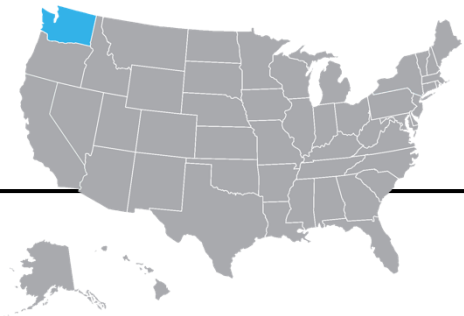

Washington Companies Supplying Artemis

| DISTRICT | PROGRAM | COMPANY | CITY |
|----------|---------|------------------------------------|-------------|
| 1 | EGS | LEVERAGE INFORMATION SYSTEMS, INC. | WOODINVILLE |
| 1 | EGS | PRACTEC LLC | REDMOND |
| 1 | GATEWAY | AEROJET ROCKETDYNE | REDMOND |
| 1 | ORION | AEROJET ROCKETDYNE, INC. | REDMOND |
| 1 | ORION | GENERAL DYNAMICS OTS (AEROSPACE) | BOTHELL |
| 1 | ORION | OLANDER CORPORATION | WOODINVILLE |
| 1 | ORION | TUXERA US, INC. | BOTHELL |
| 1 | SLS | AEROJET ROCKETDYNE, INC. | REDMOND |
| 1 | SLS | CENTRAL TRADING AGENCY | KENMORE |
| 1 | SLS | CONTROL TECHNOLOGY, INC. | KIRKLAND |
| 1 | SLS | CRANE ELECTRONICS, INC. | LYNNWOOD |
| 2 | EGS | CORTLAND COMPANY | ANACORTES |
| 2 | EGS | RUSSTECH ENGINEERING CO. | MUKILTEO |
| 2 | ORION | FLUKE ELECTRONICS CORPORATION | EVERETT |
| 2 | ORION | SYSTEMA TECHNOLOGIES, INC. | MUKILTEO |
| 2 | SLS | MTORRES AMERICA, INC. | EVERETT |
| 2 | SLS | SEACAST, INC. | MARYSVILLE |
| 3 | EGS | EUREKA! ENGINEERING | SILVERLAKE |
| 4 | SLS | UNIWEST | PASCO |
| 5 | ORION | HI-REL LABORATORIES, INC. | SPOKANE |
| 5 | SLS | HI REL LABORATORIES | SPOKANE |
| 6 | EGS | GRAVITEC SYSTEMS, INC. | POULSBO |

WASHINGTON

| DISTRICT | PROGRAM | COMPANY | CITY |
